Benefits of utilising Williams OT

WILLIAMS OCCUPATIONAL THERAPY is focused on the driver with a medical condition or disability. Williams OT has encompassed all the required services in one location rather than dealing with three or more different companies. Williams OT offers a high-quality assessment; we have the best rehabilitation and training; and we install of vehicle equipment and vehicle modifications that are customized for the client and their needs (not a product that needs to be moved off the shelf).

Williams OT offers excellence in service and support and invites clients to join our family.

Williams OT Mission

ALL THE PIECES OF THE DRIVING PUZZLE FOR PEOPLE WITH A DISABILITY

WILLIAMS OT is all about the freedom of independent driving.

We fight for people with a disability or medical condition's independence in driving because we understand the freedom that comes from driving independently and not relying on others for life tasks such as getting to and from work, picking up the kids, getting a loaf of bread and a carton of milk from the local shops, and going for a Sunday drive.

Williams OT Vision

A Driver Trained OT, Specialized driving instructor and Vehicle modifier for every 1,000,000 people.

WILLIAMS OT will be the most trusted, all-inclusive, Australia wide brand for helping drivers experience the freedom and independence of driving by assisting them to overcome functional and medical challenges that otherwise limit their ability to drive in a comfortable, safe and/or appropriate manner.
